

The **Extender**

Armor Plating For Your Square Bar Frame

Before

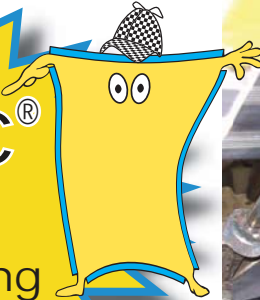

Traditional methods of attachment can expose mesh to premature breakage.

After

The shur-loc® Extender allows for mesh and tape free clamping.

Snap in a
shur-loc®
fabric panel
or use
standard locking
strips

The shur-loc® Extender virtually eliminates fabric failure on the square bar end.

- Extends the life of your mesh
- Available for most square bar roller frames
- No need for square bar taping
- Slides into frame quickly and easily
- Durable aluminum design
